It is the responsibility of the athlete to report to testing. ARTICLE 18. Dismissal

Where it is deemed that the image or reputation of the PRT Gateway Cup may be blemished (notably with regard to anti-doping laws) by the behavior of any member of a team (management or athlete), the organizer reserves the right at any time during the race to exclude the rider(s) or the team member involved from the race. Any team or rider(s) subject to this sanction will be asked to leave the race area.

Caravan Procedures

General

- Race officials are in charge of the caravan as well as the race. Their instructions will be the final authority.

- Each caravan vehicle will be provided with a radio. Drivers will be instructed as to which channel to use at the pre-race morning meeting. Roll call will proceed during the neutral starts.
- The PRT Gateway Cup will be providing neutral wheel support through Big Shark Bicycle Company in the pit area. Neutral Support will be managed by Johnny Merli.
- Due to the nature of our rolling enclosure and neutral support- there will be no vehicles, other than official race, support and media in the caravan.
- Riders needing assistance from neutral support must proceed to the pit area. Riders may never ride backwards on the course.
- Caravan sequence will be: SLMPD Lead Moto, Race Lead Moto, Peloton, Official Moto(s), Media Moto, VIP Vehicle.

The PRT Gateway Cup will be controlled using a combination of hard closure and rolling enclosure. The entire main field and peloton will be contained by rolling enclosure. All finish lines will be hard closed. All other areas of the course will be marshaled and controlled by volunteers and police to facilitate residential traffic. Cars will be allowed to cross the course after the “End of Caravan” has passed the access points. Car traffic will only be across course to designated exits. The lead vehicle will be a St. Louis City Police Vehicle which will be stopping all traffic and signaling the closure of all access points as the race approaches the designated entry points.

In the event of a breakaway, the breakaway group will be supported by the lead Police car, Lead Moto and Official Moto 1. The main field will be supported by Moto 2. Riders falling outside of the rolling enclosure will be subject to the rules of the road – but will be allowed to continue racing unless it is decided by the officials that they will impede the finishing sprint.

Pro Road Tour (PRT) Scoring Procedure

Individual Scoring

For the individual scoring, all applicable points will be calculated into a given riders total. In the case of a tie on total individual points among riders, the tie will be broken in the favor of the rider who has the most first place finishes or, if still tied, the most second place finishes, etc.; or, if still tied, the highest placing in the last individual race of the calendar.

Team Scoring

The top three riders of each team in each event score points for their team. For any given day of racing, the total team points for a given day will be the sum of the individual points for the top three scoring riders. For stage race general classifications and criterium omniums, the total team points for a given race will be the sum of the individual points for the top three riders in the overall standings. Only the officially registered riders of a team may score points for the team Pro Road Tour rankings. If a team has a guest rider who would have scored points as one of the top three riders, that rider will score no points, but the next best placed scoring rider will be counted. Only teams officially registered with USA Cycling may compete for Pro Road Tour team rankings. These teams will comprise:

- UCI teams registered through USA Cycling
- UCI teams registered through another federation that have also registered with USA Cycling for the purpose of competing in Pro Road Tour races
- USA Cycling Domestic Elite teams that register with USA Cycling for the purpose of competing in Pro Road Tour races

Giro Della Montagna

SUNDAY, September 2nd

Trailnet will once again be hosting one of their most popular recreational rides around St. Louis City. Be a participant and take part in the Trailnet Giro della Montagna Ride and finish the day watching St. Louis' best criterium bike race.

The Giro della Montagna began in 1986 and was the brainchild of life-time Hill resident, Joe Torrasi. With the help of the St. Louis Cyclones the event took a few years to gain some momentum. It was held over the Fourth of July weekend to draw additional racers who were in town for the VP Fair cycling races which were being held downtown the same weekend. The Giro became the cornerstone of the Gateway Cup in 1998 and more recently has been coordinated by Mike Weiss and the Big Shark Cycling team. The Hill is pleased to continue this great relationship and is looking forward to many more years of Giro, Giro, Giro!

The Benton Park Classic

Presented by Germ X

The fourth and final leg of the Gateway Cup gets under way in historic Benton Park. This large and technically demanding course races through yet another one of St. Louis' most nostalgic locales.

Named for Missouri's first senator, Thomas Hart Benton, the neighborhood touts a blend of stately residences and commercial buildings, some dating back to the mid-1800s. Over the years, Benton Park has been home to several notable breweries, including the Lemp Brewery, established in 1864. Not far down the road is the Anheuser-Busch campus. A National Landmark District in and of itself, three of its buildings are National Historic Landmarks featuring beautiful architectural detail, intricate ironwork and an homage to the world-famous Budweiser Clydesdales.
